

This week we are going to focus on an area slightly different to what we have been over the last few weeks. Over time, our little town of Richmond has gone through lots of changes since it was founded in 1071, following the Norman Conquest. Whether it be the style of the buildings, food eaten, population and industry, this has all had an effect on the town in which we live today.

This week, we will be focusing on present day Richmond, the town we know and love. Using your fantastic computing skills and local knowledge, I would like you to find out the following facts about Richmond.

1. Population size
2. Outlying villages
3. Foods you typically eat in a day
4. What types of shops can you find in the town
5. How many farms are found in and around Richmond

After you have found out this information, you are then to draw a picture of your favourite building or location in Richmond. Once you have done this it would be great to hear your reasons why you chose to draw this picture.

Following this, I would like you to research **ONE** local Yorkshire dish and have a go at making this for your tea with the help of your parents.

*If you want to get really adventurous, why don't you and your parents find a dish from another neighbouring county and have a go at making that, such as Durham or Lancashire. Don't forget to let me know the name of the dish and which county it comes from.*

Remember, you only need to make **ONE** dish, so choose wisely. Once you have made your meal, take a photo and upload it to ClassDojo.
